BUSINESS FROM STAFF

- Interim Assistant Director of Public Works Dione Garson explained that in FY2026, \$75,000 has been allocated for a roadway culvert assessment. This will include a pipe inspection and prioritization system to make decisions about replacing failing culverts.
- The Committee was asked to consider refreshing the stormwater management plan earlier than initially planned, potentially moving it up to FY27.
- The Committee also explored ways to gather more information from residents about flooding issues with potential involvement in tagging doors, or attending HOA meetings to raise awareness.

2. Introduction of our new Stormwater Committee Member

Interim Assistant Director of Public Works, Dione Garson introduced and welcomed our new committee member, John Filla. Dione presented an overview of what the Stormwater Committee members address in their meetings.

3. Current Project Updates

- a. Bellington Lane, Fernpark Drive and Mason Forest Dr. — projects have been delayed due to rain. We are working with the contractor to get them back on schedule.
- b. Conway Park Wetland, Malcolm Terrace Bridge removal with Streambank restoration and Woodbridge — awaiting MSD review. City staff will be meeting with MSD to discuss the length of time for review of city projects.
- c. Beaver Drive, Sona Lane, North Spuede Rd and Mission Hills Ct, 18 Sackston Woods Ln, Alden Ln, and Pine Manor Dr. — all at different stages of design.

4. Initial discussion of FY2027-FY2031 Capital Improvement Program — Stormwater Projects

Dione Garson explained the Capital Improvement Program (CIP) for FY2027-FY2031. Given higher construction costs, fewer projects may go into design for FY2027. City staff will have a better idea of the available budget near the end of the year.
