The City's Stormwater Committee and City staff propose revisions to the City's Stormwater Regulations (Chapter 425 of the Municipal Code) that are intended to protect residents from the potential negative effects of stormwater runoff resulting from development on adjacent residential lots. The proposed regulation would apply to large-scale residential development that disturb less than one acre of land, such as a new home, swimming pool, or garage addition. The proposed revision also adopts the most recent (2006) MSD Regulations by reference. The current Chapter 425 is an adaptation of the 1997 MSD Regulations.
